PROJECTS

Crystal Cove Jewellery E-Commerce Website

Developed using WordPress

Designed a responsive jewellery website with customized layouts, product pages, and smooth navigation. Added product listings, images, pricing, and contact features while ensuring a user-friendly design with basic SEO optimization.

Data Mining

Customer Purchase Pattern Analysis (Python)

Analyzed customer data using Python to identify buying patterns and purchasing trends. Applied basic data mining techniques to determine frequently purchased items and generate useful business insights.

Grocery Shop Inventory Management System

(Django, MySQL, Tailwind CSS)

Developed a system to manage stock, sales, and purchases for a grocery shop. Created login, dashboard, and form pages while improving data management and daily shop operations.
